

# **If you are 65 and older and reside in the Town of Dartmouth, you may be eligible to participate in the**

# **Smoke Detector Program**

---

Dartmouth Fire District 3, through S.A.F.E. Grant funding, has implemented the Smoke Detector Program to assist in ensuring the safety of our elderly population.

If you meet the eligibility requirements, we will install and maintain **free working smoke and carbon monoxide detection** in your home.

We will also provide personalized service on that device along with one-on-one fire safety education.
